## Learning English has never been this much fun!

Imagin'Air is a TEFL (teaching English as a foreign language) activity to help children begin their discovery of English in a fun, non-threatening environment using music, video, live puppetry, games and activities for children 5-10 years old.

The children are guided by an international team of native English speakers and local children's workers through five sessions on a make-believe airline to places where kids speak English.

European parents see English as an important tool for their children's future. We believe that their moral and spiritual development is even more important. Imagin'Air is designed by professionals in the area of language learning and creative media who value the principles of life and learning found in the Bible.

Each day, children get a chance to learn English through stories, activities and lessons that illustrate the importance of knowing the forgiveness and leadership of God in their lives.

## The Curriculum

### We make teaching English easier.

#### Here's how.

- Visual aids for the classroom like posters and flash cards.
- Distinct and detailed lesson plans for three different age ranges (5-6, 7-8 and 9-10 years.)
- Songs and scripts for the opening and closing large group activities.
- Additional activities and handouts available on-line at no additional cost.
- A 1/2 hour DVD containing episodes for each day's opening with stories and songs from "Neat Beat America."
- An audio CD for use in leading songs in the classroom as well as for reviewing English from the videos.
- Practical tips on being a better language helper by Dayle Burkhardt, author of "His English."
- Ready to order puppet kits for the leading puppet ministries in the US.

## Feedback: A Letter from Mia

Mia is a Romanian Christian who served as part of an Imagin'Air team in her home country during the summer. The narration is actually the text of a letter she wrote to us following her experience, along with some wonderful photos and home movie clips we thought you might enjoy.

(If you're on Windows, you'll need the latest Quicktime Player to watch. [Here's the link.](#) Don't be surprised, but it comes bundled with iTunes. It's a free download.)
